

I Congreso de Competitividad Minera y Sostenibilidad Social

Ángel M. Tobar Escudero - Gerente General de Epiroc Región Andina

Epiroc in brief

A leading global productivity partner for the mining and infrastructure industries

We provide customers with

- innovative, safe and sustainable drill rigs and strings, rock excavation and construction equipment and tools
- world class service and solutions for electrification, automation and digitalization of their operations

Epiroc in numbers

**More than 14 000
Employees***

**Global presence
Customers in more than 150 countries**

**Annual revenues of
BSEK 41***

Leadership in selected niches

Innovative solutions for hard rock applications

Mining

Surface mining

Underground mining

Exploration

Infrastructure

Underground
civil engineering

Surface civil engineering
and urban development

Deconstruction
and recycling

Service, spare parts and consumables

We drive the future in intelligent mining and infrastructure

Innovative, safe and sustainable solutions for increased productivity are key for us. This means leveraging innovation to achieve environmental and safety gains. It means selecting the right people and building a respected brand and reputation. It means observing the highest safety and environmental standards both in our own and our customers' operations and allowing a strong ethical compass to guide our decisions.

Sustainable Underground Mining (SUM)

LKAB, Epiroc, Volvo, ABB, Combitech

Sustainable Intelligent Mining Systems (SIMS)

Epiroc, Agnico Eagle, Boliden, ABB, Ericsson, Luleå University of Technology, KGHM Cuprum, IGW, KS, LKAB, Mobilaris, Wolfit, RWTHAachen University

Full commitment to sustainability

United and inspired throughout the whole value chain

Goals

- Short term targets (3 years)
- Long term goals (2030)

To be aligned with UN 2030 Agenda
for Sustainable Development and
Paris Agreement

Epiroc 2030 goals for People and Planet

Safe, healthy, ethical

Safety and Health

- No work-related injuries

Balanced workforce

- Double the number of women in operational roles

Walk the talk

- Have all employees and business partners comply with our Code of Conduct
- Responsible Sales Assessment Process implemented

Halve CO2 emissions

Operations

- Halve CO₂ emissions in operations
- 90% renewable energy in own operations

Transport

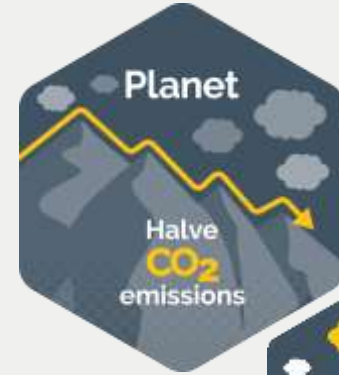

- Halve CO₂ emissions from transport

Products

- Offer a full range of fossil-free products
- Halve CO₂ emissions from machines sold (in 2030 compared to machines sold in 2019)

Suppliers

- Require 50% reduction of CO₂ emissions from relevant suppliers

Halve CO₂ emissions from products

Electrification

**70% lower energy
consumption**

**95% lower CO₂
emissions**

**0% Harmful
emissions**

Halve CO₂ emissions from products

PitViper 351E

Halve CO₂ emissions from operations

Epiroc Energy Efficiency program (EEE)

We are building an energy efficiency culture resulting in lower CO₂ emissions and more efficient use of resources.

Halve CO₂ emissions in transport

Supply-chain project brings lower CO₂ emissions with less air freight.

Safety and Health

Building a strong safety culture
towards a zero injury vision

6th Sense

6th Sense is our package of digital solutions that optimizes customers' processes, thereby strengthening their productivity and safety.

Double the number of women in operational roles

To enable better business results we want a diversity of cultures, nationalities and ethnic origins and a good gender balance among our employees.

United. Inspired.

Performance unites us, innovation inspires us,
and commitment drives us to keep moving forward.

Count on Epiroc to deliver the solutions you need
to succeed today and the technology to lead tomorrow.
